APM CO., LTD

AWCS-99X

2.5-Inch Color TFT Monitor Wireless Camera Detector with 900 to 2520MHz Scanning Range

Key Specifications/Special Features:

Features:

- 2.5-inch monitor
- Intelligent panel and smart key for easy use
- Manual/auto operation modes offered simultaneously
- LCM indicator to show the status
- Wide frequency coverage
- Alarm signal output for wider application
- Aluminum-mag alloy case in a compact and rugged outlook design
- Internal disposable battery power and external consistency AC adaptor exist

Applications:

- Counter-surveillance device ideal for tracking down all of hidden an concealed wireless cameras
- Normal wireless receiver with various frequency bands
- Testing equipment for RF engineer or installer use

Specifications:

- Scanning range: 900 to 2520MHz
- Operation mode: auto/manual
- Antenna head: SMA (detacheable)
- Battery life: 3 hours
- Internal power: AA battery 1.5V x 4
- External power: 5VDC/750mA
- Video display: 2.5-inch colour TFT monitor
- Frequency display: LCM
- Auto scan mode: 10 to 20 seconds/cycle (L~H)
- Manual scan mode: 1MHz/second, 10MHz/second
- Dimension (L x W x H): 120 x 74 x 35mm
- Weight: 240g
